

# Goldilocks doesn't need your story points or your t-shirts

Goldilocks gets tasks just right

Hallo!

# How long will it take?

Person-days

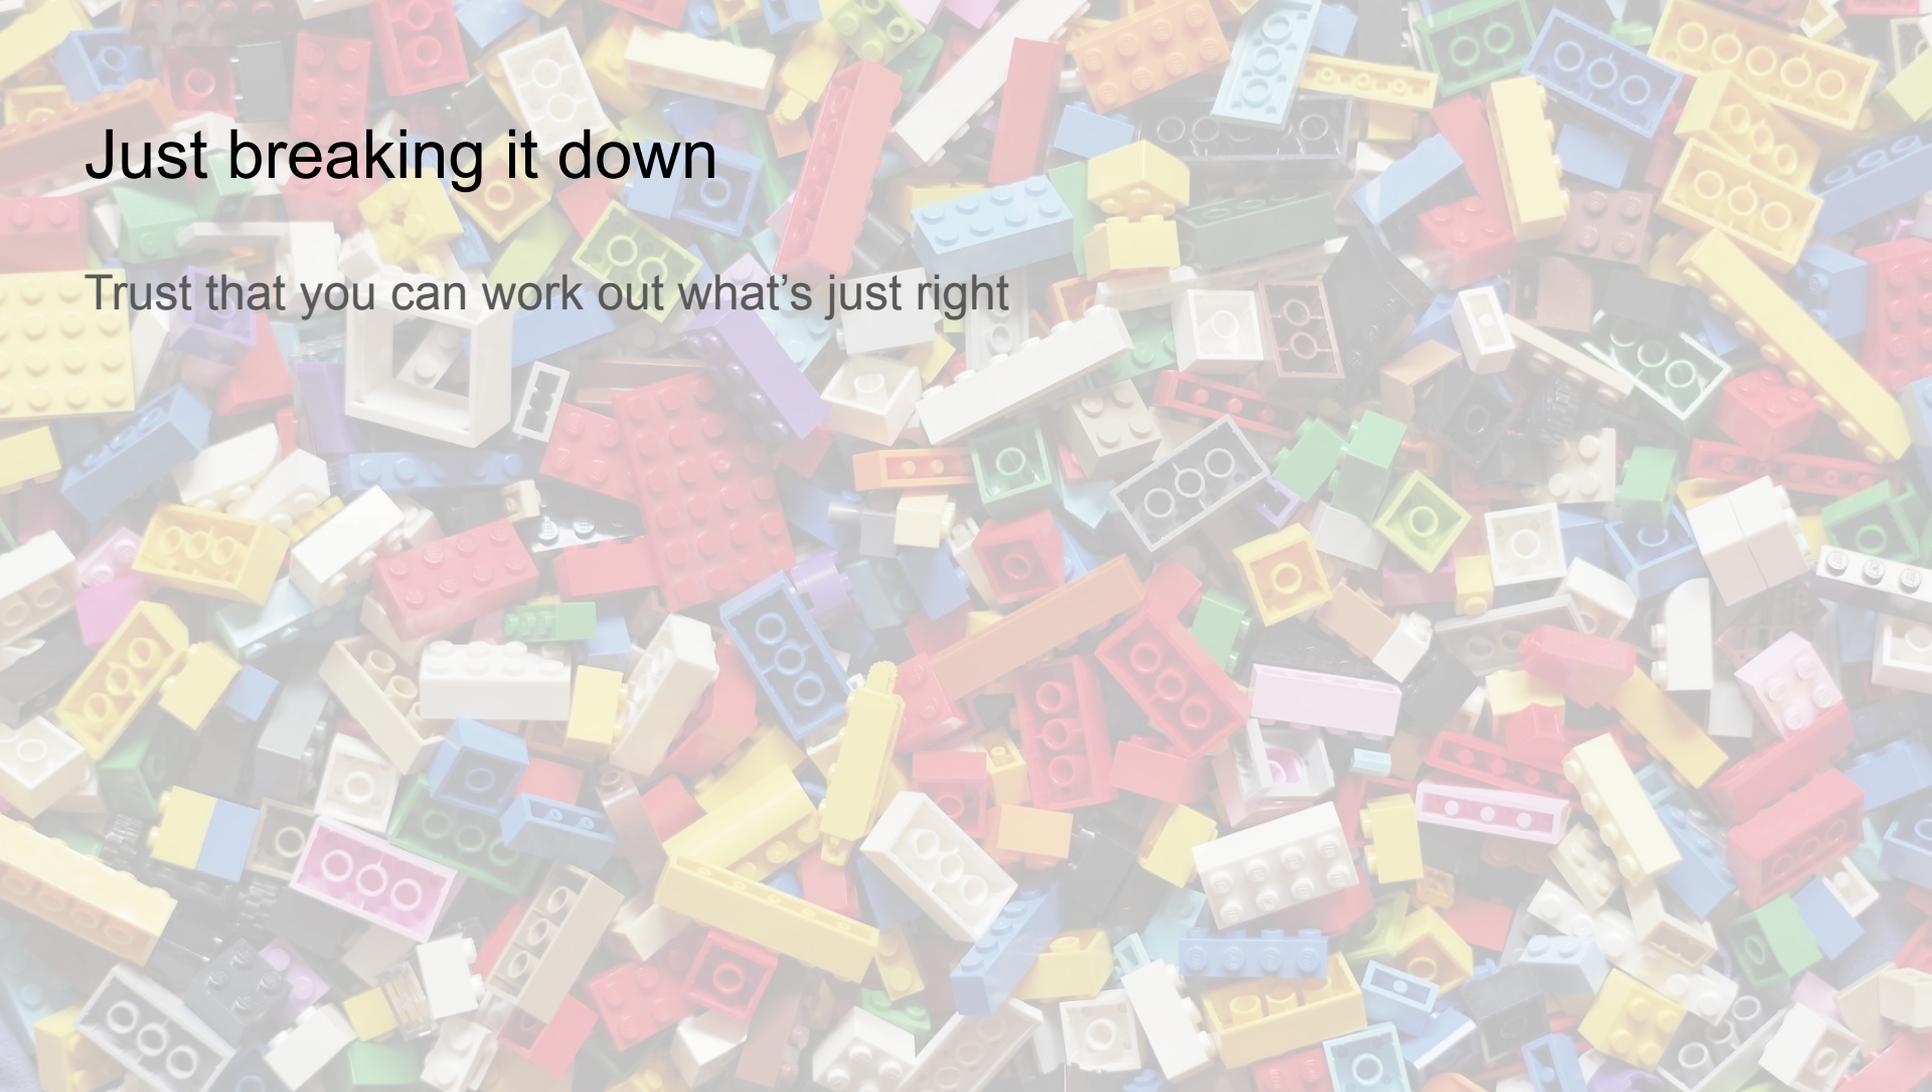

Buffering

Story points & Velocity

A pile of t-shirts of various sizes...?

Good if you're in clothing retail :)

Just breaking it down

Trust that you can work out what's just right

Responding to change

Over following a plan

# Building the feature

It's all about the number of pieces you have to put together

# Learning comes from Experience and Observations

Have a go ... discuss ... have another go ... discuss again ... repeat

Is it small enough? Do we know enough to decide?

Measure.

Iterate.

Tschau!
